

Freshman Design 2011

Group #275 Proposal Evaluation Worksheet (Resubmission)

Project 126 "BioGUI: A graphical user interface for bioinformatics applications"

Advisor: Ahmet Sacan

Members:	Brian Tighe	bct26@drexel.edu
	Ethan Sena	ejs85@drexel.edu
	Gavin Rapp	gjr29@drexel.edu
	Henry Kuns	hck27@drexel.edu

Grading Components

1. **Spelling and Grammar** The proposal contains no major spelling or grammar errors. /
2. **Background** The group has conducted sufficient background research into the project and understands the technical challenges. The proposal provides adequate motivation for the project. /
3. **Technical Approach** The proposal clearly outlines the technical approach and provides a sufficiently detailed timeline/gantt chart describing the work to be done in Spring term. /
4. **Deliverables** All projects are required to have tangible deliverables (prototypes, computer models, software, detailed design reports). The project deliverables should be described in detail. /
5. **Citations** A minimum of 4 citations must be included and formatted in IEEE style. The citations must be referenced in the body of the document. Web pages should not be used as references except in rare cases. /
6. /
7. /
- Total** /
